Modern flair for your kitchen.

Tulip Cooking induction cooktops instill any countertop with sleek, minimalist style that can be personalized to suit your imagination.

This is the world's only modular induction cooktop with flexible burner placement—giving you limitless possibilities for a striking countertop cooking display.

- Gloss-black cooktop surface complements any kitchen design
- Burners are available in two sizes: medium and large
- Ceramic cooktop surface never gets hot to the touch, offering greater kitchen safety
- Installs easily in any type of countertop and cleans with a simple wipe of the surface

Bring advanced technology to your cooking.

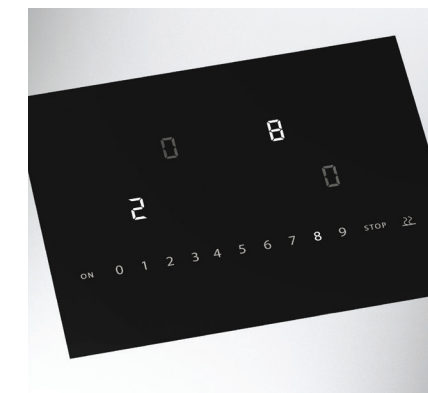

Induction represents the latest in cooking innovation: the magnetized direct heating of cast-iron or similar metal cookware through a ceramic-surface cooktop.

Tulip Cooking induction cooktops further this technology through an advanced solid-state control unit, paired with powerful embedded burners that deliver optimal heating efficiency for faster cooking.

Tulip Cooking induction cooktops are designed for easy installation and may be placed in any configuration on a countertop.

STATE-OF-THE-ART TECHNOLOGY

- 100% flexible placement
- Touchpad solid-state control panel monitors and controls cooking temperature
- Installs flush with the countertop
- Low-energy usage combined with high-energy output
- Easy-to-clean glass surface

MEDIUM BURNER

2,100 Watts / Measures 10 $\frac{5}{8}$ "

LARGE BURNER

3,000 Watts / Measures 11 $\frac{3}{4}$ "

CONTROL PANEL

Measures 8 $\frac{3}{4}$ " × 5 $\frac{1}{2}$ "

ELECTRICAL REQUIREMENTS

220 Volts

Enjoy the perfect pairing.

You can even install Tulip Cooking induction and gas burners together in the same countertop, in virtually any configuration. Experience a truly individualized expression of your passion for cooking.
